Providing an environment that fosters the art and craft of woodturning

A Publication of the Peace River Woodturners

Here's what Dave Brethauer has been keeping busy with all summer.

54 mushrooms for the Kennett Square Mushroom Festival in September. Kennett Square is the mushroom capital of the U.S.

All made with Norfolk Island Pine he brought back from Florida when he left in the Spring.

If Any other “seasonal” members are doing anything special, please share your pictures and comments with me to post in a future PRW Newsletter issue.

Quick & Easy Threaded Inserts For Urns

By Brad Adams

Here's how I put ABS plastic threaded inserts on my urns. Sorry for the poor photos but this was a quickie. Please note I do most of my turning outboard so the perspective may confuse you a bit.

Start with a 1 ½ “ ABS drain pipe cleanout available from any hardware store.

Mount the female part in expansion jaws. Use a scraper to remove the little gripper knobs and the raised lettering on the face of the female part. Cut a 1/8 ” deep groove about 1/8 ” in from the face of the piece to create a flange.

Continued:

Then part the piece off about $\frac{1}{4}$ " thick

Here are the female threads glued into the neck of the urn.

Grip the square end of the male part in a chuck.

Continued:

Part off about $\frac{1}{4}$ " of the male threads.

Turn a tennon on the underside of the urn lid to fit the male threads. You can then reverse the lid and use the tennon to hold the lid while turning the top side.
