

Making a Tulip Flower

The letters below correspond to the diagram on page 2

A: Cut a 3" x 3" x 3 ½" block.

B: Squared the top to find the center.

C: Drill a whole ¾" about 1 ½" deep in the center of the block.

D: Mark lines at the top of block as shown in this diagram.

E: Cut the outer lines on the block .This is what it should look like when done.

F: This is the side view.

G: This is a top view.

H: You can make a jig to fit in a four jaw chuck ¾" round in diameter and 3" inches long.

I: An example on the leaf mounted on jig in the head stock with the tale stock for support.
